

# Vacuclave 105 and Vacuclave 305

The fastest autoclaves of their class.

**#1**

**Record sterilization from 6.5 min. (plus flexDRY drying)\***

Vacuclave 105 and Vacuclave 305

# Not big. But great.

To the future, get set, go! With the fastest autoclaves in their class, we are redefining the limits of speed: Because the 5 liter class B autoclaves have been developed down to the smallest detail for a great performance!

## Ahead of the times: In all programs.

Buckle up and sterilize instruments on up to 2 trays in record times from 6.5 minutes (plus drying).

## Big on the inside, small on the outside: Special all around.

The compact powerhouse with a device width of just 30 cm saves up to 60 % space compared to conventional practice autoclaves.

## Magically simple: Simply magical.

The Plug & Play installation concept, the large Smart-Touch Display and the Power Save function make everything easier - from installation and operation to environmental protection.

## Made in Germany: Made for You.

We make no compromises when it comes to quality: We develop and produce to the highest quality standards in Berlin - 100% made in Germany. Because we know an autoclave must never fail.

Small autoclaves. Great performance.

# Fast has never been this fast before.

Bye bye waiting times, hello sterilization in record time. Vacuclave 105 and Vacuclave 305 enable up to 6 times faster workflows than conventional practice autoclaves. What does that mean in concrete terms? More productivity, more flexibility, more time for your patients.

from  
**6.5 min\***

Cycle time of a conventional practice autoclave: approx. 40 minutes

shorter cycle times for sterilization

less space required in the decontamination room

less weight than a practice autoclave

Loading concepts for up to 22 dental contra-angle handpieces per batch

Loading concept for an ophthalmic cataract set

\* Cycle time with empty chamber and optimum conditions (plus drying).

## Compact powerhouses for your practice

With a width of only 30 cm, the lightning-fast autoclaves fit perfectly into any reprocessing line: As an addition to your practice autoclave or as a stand-alone unit. Discover the versatility of our innovative device concept.

Application area #1

### The perfect match

Every practice needs to sterilize - but how long is up to you: By supplementing your practice autoclave, you can quickly sterilize cost-intensive instruments between treatments.

➡ Reduce the number of instrument sets required.

Application area #2

### The one and only

Small autoclaves for big dreams: Vacuclave 105 or Vacuclave 305 are faithful and efficient companions for practices with few instruments.

➡ Meet the requirements for compliant reprocessing in the smallest space.

More power. More flexibility. More wow.

# Our small autoclaves for big dreams.

Who says you can't expect big features from a small autoclave? Benefit from a magical operating concept, impressive power and smart features that save you time, money, and space in instrument reprocessing:

## Vacuclave 105 (Pro Line)

Our entry-level model: With class B and S programs, the Pro Line compact autoclave offers everything you need for safe, convenient and resource-saving sterilization.

### Powerful class B vacuum process

Reliable sterilization of up to 2 kg on 2 trays in just 6.5 to 16 minutes (plus drying) - Made in Germany.

### Smart-Touch Display with LED status

Touchscreen with intuitive menu structure for easy operation like your smartphone - even with gloves.

### Connectivity and data logging

Compliance with legal requirements through logging of sterilization parameters via USB and network or log printout via MELAprint 80.

### FlexDRY drying

Freely programmable drying time from 1 to 60 minutes, individually tailored to your workflow and load.

### Power Save energy-saving mode

Heating and display standby mode between sterilizations for top energy efficiency.

### Plug & Play installation concept

Lightning-fast commissioning with the aid of external water tanks.

## Vacuclave 305 (Prime Line)

Maximum flexibility, efficiency and legal certainty in the smallest space: Vacuclave 305 also impresses with smart functions for perfect drying results and seamless batch traceability.

### DRYtelligence drying

Algorithm-controlled drying ensures optimum results while reducing drying times by up to 80 %.

### ProControl approval

Say goodbye to paperwork: ProControl enables batch release and user authentication directly on the display without extra software.

### Label printing with MELAprint 80

The optional barcode label printer enables seamless labeling and traceability of instruments - from treatment to reprocessing.

Your new comfort zone: The reprocessing room.

# The MELAG system solution

Every practice is unique. With individual system solutions, we are the partner you can rely on. Benefit from the perfect interaction of MELAG washer-disinfectors, sealing devices, autoclaves and software solutions. This is how we turn your ideas of a time-, space- and cost-saving hygiene workflow into reality.

### Personal:

A central contact person for questions about instrument reprocessing

### Efficient:

Cost optimization through synchronization of the service for all devices in the processing room

### Process-optimized:

Coordinated operating concept to avoid errors in everyday practice

Unique as a product, unbeatable as a system:

✓ Cleaning & disinfection with MELAttherm

✓ Packaging with MELAseal or MELAstore

✓ Steam sterilization with Vacuclave 105 / 305

✓ Documentation & approval with MELAttrace

✓ Labeling with MELAprint 80

Plug & Play installation concept

# Quickly installed, sterilized anywhere.

Our plug & play installation concept with external water tanks and highly effective air cooling enable lightning-fast commissioning at any desired location, because Vacuclave 105 and Vacuclave 305 require neither water nor compressed air connection.

## Water supply

The water supply via external tanks and the highly efficient air cooling ensure reliable operation.

➔ 5 liter waste water tank included in the scope of delivery

## Documentation

With two USB and one network interfaces, there are no additional costs for the documentation of sterilization protocols.

➔ USB stick included in the scope of delivery

## Power supply

Power is supplied by connecting the Vacuclave 105 and Vacuclave 305 to a 200 - 230 V socket.

➔ Mains cable included in the scope of delivery

As versatile as you are.

# The right accessories for you. And your Vacuclave.

Thanks to a wide range of accessories, you can easily put together the configuration that suits you best. Vacuclave thus offers maximum safety and efficiency - ideally tailored to your individual instrument reprocessing workflow.

### Trays

enable optimum use of the sterilization chamber of the Vacuclave 105 or Vacuclave 305 with either two flat or one deep tray.

Tray flat: Art. no. ME23446  
Deep tray: Art. no. ME23447

**Tray flat**  
Dimensions (HxWxD)  
2 x 17.3 x 28.7 cm

**Deep tray**  
Dimensions (HxWxD)  
5 x 17.3 x 28.7 cm

### Chamber Protect

for thorough cleaning of the chamber. The chamber cleaning set contains a powerful cleaner, 50 lint-free cloths and 1 microfiber cloth.

Art. no. ME01081

### MELAtrace

enables professional documentation, approval and traceability of the entire reprocessing process.

Download MELAtrace now free of charge with a 90-day trial license from [www.melag.com/en](http://www.melag.com/en)

### MELAprint 80

prints barcode labels for optimum identification and traceability with MELAtrace and Vacuclave 305 or log files with Vacuclave 105 and 305.

Art. no. ME01108

### MELAdoc Labeller

is used for manual labelling of wrapped instruments after sterilization with double-sided adhesive labels.

Art. no. ME01086

### MELAcontrol Type 5

is used to check the sterilization conditions (steam, temperature and time) and can be added to packaged instruments or placed directly on the tray.

Art. no. ME01077

### MELAcontrol Helix

provides a reliable control of the sterilization result in the type B program as a helix test system with 250 indicator strips.

Art. no. ME01080

Figures. Data. Facts.

# Technical data

Gain time for your patients: The compact Pro and Prime Line autoclaves offer everything you need for safe, convenient and resource-saving sterilization. In the smallest space and in the shortest time.

Vacuclave 105 programs (Pro Line)		Operating times (with minimum to maximum load) *	Drying (time-controlled)
Universal-B	134° C, plateau time: 5.5 min	11 – 16 min	8 min
Quick-S	134° C, plateau time: 3.5 min	6,5 – 10 min	5 min
Gentle-B	121° C, plateau time: 20.5 min	26 – 32 min	20 min
Prion-B	134° C, plateau time: 20.5 min	26 – 32 min	8 min

Vacuclave 305 programs (Prime Line)		Operating times (with minimum to maximum load) *	Drying	
			DRYtelligence**	time-controlled
Universal-B	134° C, plateau time: 5.5 min	11 – 16 min	from 1 min	8 min
Quick-S	134° C, plateau time: 3.5 min	6.5 – 10 min	from 1 min	5 min
Gentle-B	121° C, plateau time: 20.5 min	26 – 32 min	from 1 min	20 min
Prion-B	134° C, plateau time: 20.5 min	26 – 32 min	from 1 min	8 min

\* Data for the Quick-S program for unpacked loads and for all other programs for single-packed loads. Times may vary depending on load type and quantity.

\*\* DRYtelligence automatically adjusts the drying process to your load. Intelligent drying therefore achieves optimum drying results at all times.

Quickly installed, sterilized everywhere. Our plug & play installation concept with external water tanks enables lightning-fast commissioning: Find out more about the technical data of our new compact autoclaves.
